Introduction

1. During the first year of the 1994-1995 biennium, the financial situation under both the regular and operational budgets steadily improved. Under the regular budget, improved liquidity and a stable cash situation provide the basis for increased implementation of the budget during 1995. In the operational budget, the impact of the continued decline in support cost income levels has been more than offset by reductions that were achieved in expenditures with a view to balancing the operational budget by year end. As a result of the measures taken, the operational budget recorded a surplus of $838,595 for 1994.

I. CURRENT SITUATION

Regular budget

2. As of 31 December 1994, the collection rate for 1994 assessed contributions amounted to 96.45 per cent, 74.25 per cent of which related to 1994 collections and 22.20 per cent to prior year collections. This compares to the collection rate for 1993 of 98.13 per cent, 71.89 per cent of which related to 1993 collections and 26.24 per cent to prior year collections. The stability in the annual collection rates is mainly attributable to the cooperation and efforts of some Member States to meet their obligations over time.

3. While the collection of assessed contributions remained stable in 1994, the Organization nevertheless depends on the strengthened cash resource base and the new cash flow generated through the collection of assessed contributions from all its Member States in 1995. The Organization hopes to improve the rate of implementation of its programme of work in 1995 based on the premise that Member States will maintain or improve their pattern of payment of assessed contributions and that the strengthened cash resource base of the Organization will remain available.

4. Annex I to the present document shows the status of assessed contributions to the regular budget as of 28 February 1995. As of that date, unpaid assessed contributions for the period 1986 to 1994 amounted to $18,934,160 and AS 280,411,278 (equivalent to $26,453,899 at an exchange rate of US$ 1 = AS 10.60) for a total of $45,388,059. Unpaid assessed contributions for 1995 amounted to $9,270,234 and AS 876,964,529 (equivalent to $82,732,513) for a total equivalent of $92,002,747. The total cumulative amount outstanding is equivalent to $137,390,806 at current rates. As of 28 February 1995, the collection rate for 1995 amounted to 23.68 per cent of the 1995 assessment, 21.56 per cent of which related to 1995 collections and 2.12 per cent to prior year collections. At the same time last year, the collection rate amounted to 11.97 per cent. Nevertheless, as of 28 February 1995, only 29 Member States had made full or partial payments of assessed contributions in 1995.

5. Annex II shows the status of advances to the Working Capital Fund. Unpaid advances to that Fund as of 28 February 1995 amounted to $141,596.

6. Annex III shows the General Fund cash flow analysis for 1995 as of 28 February 1995. Projections of assessed contribution income are based on previous patterns of income receipt. The total collection rate in 1995, including current year and prior year collections, is expected to reach approximately 94 to 97 per cent of the 1995 assessment. Projections of budgeted disbursements and cost reimbursements reflect increased implementation of the programme of work and related expenditures. In the event of cash shortfalls caused by unexpected delays or non-payment of projected contributions, expenditures would be held, to the extent possible, to available cash resources.

Operational budget

7. The operational budget recorded an excess of income over expenditure for 1994 of $838,595. Income earned in the operational budget amounted to $13,062,447 against expenditures of $12,223,852. The surplus for the year has been credited against the reserve balances, which had increased to $2,695,547 as at 31 December 1994.

8. The situation of the operational budget for 1994 as at 31 December 1994 is summarized below:

Operational budget status report, 1994
(In thousands of US dollars)

Opening balance of reserves 1 January 1994		1,856.9
Income	13,062.4	
Less expenditures	12,223.8	
Surplus		838.6
Closing balance of reserves 31 December 1994		2,695.5

9. Income estimates excluding miscellaneous income for 1995 of $12.9 million reflect a slight increase in support cost income from technical cooperation activities compared to 1994. Expenditures are expected to be held below income levels during 1995 through continued maintenance of cost control measures. However, the

operational budget remains vulnerable to exchange rate fluctuations, as witnessed by recent declines in the value of the United States dollar against the Austrian schilling. The measures described in document PBC.10/10, paragraph 13, will continue to be applied during 1995 until the financial stability of the operational budget is assured and reserves have been restored to prudent levels.

II. OPERATIONAL BUDGET RESERVE

10. The level of the operating (mandatory) reserve under the operational budget was set by the Programme and Budget Committee in its conclusion 1989/4 at 15 per cent of the estimated expenditure for the biennium 1990-1991 of $36.7 million, i.e. at $5,504,190.

11. As a result of the deficits recorded in the operational budget for the years 1991 to 1993, the reserve declined to a level of $1.9 million by 31 December 1993. The surplus recorded in 1994 resulted in a partial restoration of the reserve balance to $2.7 million. The improving financial situation provides an opportunity to strengthen the reserves further in 1995.

12. In response to the observations of the External Auditor (IDB.13/7-PBC.10/8, para. 74) on the need to establish policy guidelines in respect of the operational budget reserve, a review has been made of the purposes, appropriate level and procedures for utilization of the reserve.

Purposes of the reserve

13. The maintenance of an adequate reserve is, first and foremost, based on sound financial practice and is intended to provide a secure financial base for the operational budget. The operating reserve would be maintained primarily to protect against unforeseen shortfalls in delivery and support cost income and for inflation and currency adjustments. The reserve could also be used to liquidate legal obligations in the case of abrupt termination of activities financed under the operational budget.

Level of the reserve

14. The level of the reserve would be established at 15 per cent of estimated biennial expenditures and adjusted every two years in line with the programme and budget estimates for each biennium. The appropriate level of the reserve for 1996-1997 would, on this basis, be set at $4.3 million, representing approximately 15 per cent of the anticipated expenditure of $28.8 million for that biennium.

15. To ensure that the Organization retains adequate flexibility to respond to growth in technical cooperation, the build-up of the reserve to this level will be made gradually depending on actual income and expenditure levels during 1995 and the biennium 1996-1997.

Procedure for utilization

16. All proposed transfers from the reserve for the purposes referred to above would be made under the written authority of the Director-General. The policy-making organs would be informed of adjustments to the reserve balance, together with proposals on measures to be taken by the Secretariat to restore the reserve to approved levels as appropriate. Regular reporting will be made of the financial situation of the operational budget and reserve balances. The reserve will continue to be referred to as "operating reserve", in line with current United Nations terminology.

III. REGULAR BUDGET PERFORMANCE REPORT

17. Implementation of the 1994-1995 regular budget as of 31 December 1994, including comparisons of actual expenditures and income with approved budget estimates, is presented in the following table:

Regular budget implementation, 1994-1995, as of 31 December 1994

(In thousands of dollars at US$ 1 = AS 12.90)

	Approved budget 1994-1995	Actual expenditure 1994	Percentage implementation
Gross expenditures	229,320.2	92,134.8	40.2
Cost reimbursement income	31,414.6	12,316.2	39.2
Net expenditures	197,905.6	79,818.6	40.3

18. Annex IV to the present document provides a breakdown of the above table by Major Programme and major object of expenditure.

19. As in past bienniums, the rate of financial implementation in the regular budget has been lower than budgeted in the first year of the biennium. The delay in implementation in 1994 was due in part to financial uncertainties at the beginning of the biennium and to the organizational staff and restructuring process which was undertaken during the first half of 1994. The rate of implementation increased in the second half of 1994, owing in part to the recruitment of staff. As at

31 December 1994, the vacancy rate under the regular budget was 9.0 per cent for Professional-level and 2.6 per cent for General Service-level staff.

20. The financial impact of the measures to achieve full and effective utilization of budgetary resources as described in document IDB.13/22 should be realized in 1995 and the rate of financial implementation in all programmes is expected to be substantially higher in 1995 than in 1994.

21. The budgetary resources for the Regular Programme of Technical Cooperation and supplementary activities for the Industrial Development Decade for Africa are in the process of being fully programmed. Full implementation of these high-priority activities is expected by the end of the biennium.

22. A lower-than-budgeted implementation rate for the provision of language and documentation services has been largely caused by the higher-than-budgeted Professional-level vacancy factors and changes in cost-sharing ratios between UNIDO and the United Nations Office at Vienna (UNOV).

IV. REVISED APPROPRIATIONS FOR 1994-1995

Organizational changes and resource redeployments

23. Adjustments to the approved budget estimates for 1994-1995 to take account of the implementation of the restructuring exercise were presented to the Programme and Budget Committee (PBC.10/10, annex IV).

24. As part of the continuing process of reform, further resource redeployments and budgetary adjustments have been made or are expected to be implemented during 1995, such as the transfer of the Industrial Development Review Unit from Major Programme 300 (Country Strategy and Programme Development) to Major Programme 500 (Information and Research).

25. The financial impact of the above redeployments on the Major Programme appropriations is shown in annex V to the present document. The redeployment of resources resulting from the organizational changes did not change the approved 1994-1995 budgetary allocations by major object of expenditure.

Other revisions

26. The proposed transfer of responsibility for the provision of language and documentation services in Vienna from UNIDO to the United Nations Office at Vienna is expected to be approved by the United Nations General Assembly during 1995. The report of the Secretary-General proposing the establishment of conference servicing operations under the management of UNOV (A/C.5/49/24) was considered by ACABQ in February 1995. The report of ACABQ (A/49/7/Add.9) recommends the approval by the General Assembly of the establishment of a unified conference service at the Vienna International Centre under the management of the United Nations, effective 1 April 1995.

27. Transfer of responsibility from UNIDO to UNOV will necessitate a redeployment of resources within the UNIDO budget for 1994-1995. The revised appropriations by Major Programme and major object of expenditure would reflect the transfer of posts to UNOV, the adjustment to UNIDO's budgeted income and the provision of resources for UNIDO's contribution to joint language and documentation activities. The approval for the transfer of Languages and Documentation Services to UNOV was given by the General Conference (GC.5/Dec.19), which authorized the Director-General to implement the necessary adjustments within the net resource allocations of those programmes affected and included in the programme and budgets, 1994-1995.

28. Subsequent to the approval of the General Assembly and confirmation of the effective date of transfer, revised appropriation proposals for the biennium 1994-1995 will be submitted to the UNIDO policy-making organs.

29. Revisions will also be presented in respect of: (a) the adjustment of expenditure and income following the assumption of responsibility by UNOV for the provision of general services previously provided to UNOV by UNIDO; and (b) the redeployment of $1 million from major object of expenditure "general operating expenses" to "acquisition of equipment and furniture" to replace the telephone system at UNIDO Headquarters, as approved by the Industrial Development Board in its decision IDB.13/Dec.13.

V. TREATMENT OF NEW MEMBER STATE REGULAR BUDGET INCOME

30. In line with past practice and consistent with the recommendations of the External Auditor, the procedures concerning the treatment of new Member State income are presented below.

31. In accordance with financial regulation 5.2(c), for each of the two years of the fiscal period the assessment of Members shall be adjusted in respect of contributions resulting from the assessment of new Member States as provided in financial regulation 5.6. In the context of the 1994 assessment letter to Member States, adjustments were made for such contributions received relating to the 1986-1987, 1988-1989 and 1990-1991 bienniums based

on the rates of assessment applicable to those bienniums. The amount of cash available for distribution at that time was $213,511, as reported in the financial statements as of 31 December 1992 (PBC.9/7).

32. The Secretariat plans to implement the following procedure in future, which is in accordance with financial regulation 5.2(c). Henceforth, the adjustment for new Member State income will be made in the third year after the fiscal period, i.e. for 1992-1993 in 1996, for 1994-1995 in 1998, etc. The adjustment would therefore be credited to the assessments for the respective assessment year. Adjustments will be made only once for each biennium at the rates of assessment applicable for that period.

33. Any cash received following the initial adjustment for any of the bienniums already adjusted will be carried forward to the next distribution. While only contributions received are available for adjustment of the assessments of Members, all Member States who were assessed in the applicable biennium receive a credit adjustment. Adjustments will be made at the United Nations rate of exchange applicable in December.

VI. ACTION REQUIRED OF THE COMMITTEE

34. The Committee may wish to recommend to the Industrial Development Board the adoption of the following draft decision:

"The Industrial Development Board:

(a) Takes note of the report of the Director-General on the financial situation of UNIDO (PBC.11/7), containing information concerning the status of assessed contributions, advances to the Working Capital Fund, cash flow estimates, regular budget performance, revised appropriations for 1994-1995, proposals on operational budget reserves and the treatment of new Member State income;

(b) Urges those Member States that have not yet paid their assessed regular budget contributions, including advances to the Working Capital Fund, for the bienniums 1986-1987 to 1994-1995 to do so without delay;

(c) Takes note of the proposals on the operational budget reserve and approves the proposals of the Director-General: (i) to fix the operating reserve for the biennium 1996-1997 at $4.3 million, representing 15 per cent of the estimated operational budget expenditures for that biennium, and (ii) to endeavour to restore the reserve to that level as soon as possible;

(d) Takes note of the comments outlined in chapter V of document PBC.11/7 on the treatment of new Member State income and approves the application of those procedures for the 1992-1993 and future bienniums."

Introduction

1. In its conclusion 1987/19, paragraph (j), the Programme and Budget Committee requested the Director-General to submit each year to the Industrial Development Board through the Committee a clear and detailed financial performance report itemizing the utilization of financial resources.

2. The present interim financial performance report covers the period 1 January - 31 December 1994 and is based on the appropriations contained in the programme and budgets, 1994-1995, as adopted by the General Conference at its fifth session (decision GC.5/Dec.18). Statements of the investments held in the regular budget and in the operational budget, in accordance with financial regulation 8.2, are also provided.

NOTES TO THE FINANCIAL STATEMENTS

Note 1. Summary of significant accounting policies

The following are the significant accounting policies of UNIDO:

(a) UNIDO's accounts are maintained in accordance with the Financial Regulations of UNIDO as adopted by the General Conference, the rules formulated thereunder, administrative instructions in force as at the date of conversion of UNIDO into a specialized agency, and in conformity with generally accepted government accounting principles. UNIDO follows the Accounting Standards as approved by the Consultative Committee on Administrative Questions on behalf of the Administrative Committee on Coordination at its seventy-ninth session and requested by General Assembly resolution 48/216, as shown below:

(i) Going concern, consistency and accrual are fundamental accounting assumptions. Where fundamental accounting assumptions are followed in financial statements, disclosure of such assumptions is not required. If a fundamental accounting assumption is not followed, that fact should be disclosed together with the reasons.

(ii) Prudence, substance over form, and materiality should govern the selection and application of accounting policies.

(iii) Financial statements should include clear and concise disclosure of all significant accounting policies which have been used.

(iv) The disclosure of the significant accounting policies used should be an integral part of the financial statements. The policies should normally be disclosed in one place.

(v) Financial statements should show corresponding figures for the preceding period.

(vi) A change in an accounting policy that has a material effect in the current period or may have a material effect in subsequent periods should be disclosed together with the reasons. The effect of the change should, if material, be disclosed and quantified.

(b) The UNIDO financial statements are prepared on the historical cost basis of accounting and have not been adjusted to reflect the effects of changing prices for goods and services.

(c) Fund accounting. The UNIDO accounts are maintained on a "fund accounting" basis. Separate funds for general or special purposes may be established by the General Conference or the Director-General. Each fund is maintained as a distinct financial and accounting entity, with a separate self-balancing double-entry group of accounts. Separate financial statements are prepared for each fund or for a group of funds of the same nature.

(d) The fiscal period of the Organization is a biennium and consists of two consecutive calendar years.

(e) The income, expenditure, assets and liabilities are recognized on the accrual basis of accounting except for trust funds where income is recorded upon receipt of the contribution only.

(f) Translation of currencies. The accounts of the Organization are presented in United States dollars. Transactions in other currencies are translated into United States dollars at the time of the transaction at rates of exchange established by the United Nations. In respect of such currencies, the financial statements, prepared at such intervals as may be prescribed, reflect the cash, investments, unpaid pledges and current accounts receivable and payable in currencies other than United States dollars, translated at the United Nations rates of exchange in effect as at the date of the statements.

(g) Assessed contributions. In accordance with financial regulation 5.6, payments made by a Member State are credited first to the Working Capital Fund and then to the contributions due, in the order in which the Member State was assessed.

(h) Pledged contributions. Pledges are recorded as income on the basis of a written commitment by a prospective donor to pay a monetary contribution at a specified time or times. Pledges received for future years are recorded as deferred income. Advances received in payment of pledges for future years are classified as liabilities of the fund.

(i) Contributions in kind received or receivable and the value thereof are not being accounted for.

(j) Funds on deposit in interest-bearing bank accounts, certificates of deposit, time deposits and call accounts are shown in the statements of assets and liabilities as cash.

(k) Deferred charges.

(i) Deferred charges comprise expenditure items that are not properly chargeable in the current fiscal period and that will be charged as expenditure in a subsequent fiscal period.

(ii) For balance-sheet statement purposes only, that portion of the education grant advance which is assumed to pertain to the scholastic year completed as at the date of the financial statement is shown under deferred charges. The full amount of the advance is maintained in the accounts receivable from staff members until such time as the staff member produces the required proof of entitlement to the education grant, at which time the budgetary account is charged and the advance recovered.

(l) Fixed assets. Furniture, equipment, other non-expendables and leasehold improvements are not included in the assets of the Organization. Acquisitions are charged against budgetary accounts in the year of purchase.

(m) Commitments approved for future fiscal periods that are necessary in the interests of UNIDO, in accordance with financial rule 109.6, are disclosed in the notes to the financial statements of the respective fund. Such commitments are normally restricted to administrative requirements of a continuing nature and to other contracts or legal obligations where long lead times are required for delivery.

(n) No provision is made in the General Fund for repatriation grant entitlements or to meet contingencies under appendix D to the Staff Rules of UNIDO as funds are provided for in the budget appropriations. However, provision is made to meet repatriation grant entitlements and contingency liabilities for compensation payments under appendix D for personnel financed by technical cooperation other than UNDP and general trust funds that are calculated on the basis of one per cent of net base pay.

(o) Statement of surpluses due to Member States shows funds available for credit to Member States arising from unobligated balances of appropriations, savings in the liquidation of obligations for prior periods and contributions from new Member States. In accordance with financial regulation 4.2 (b) as amended, the amount standing to the credit of Member States is reduced by the amount of contributions remaining unpaid.

The balance of the surplus account is to be offset against future assessments in accordance with financial regulation 5.2 (d), unless the General Conference decides otherwise.

(p) Miscellaneous income.

(i) The net income realized from revenue-producing activities is reported as miscellaneous income.

(ii) Refunds of expenditures charged to prior fiscal periods are credited to miscellaneous income.

(iii) Moneys accepted in respect of which no purpose is specified have been treated as miscellaneous income.

(iv) Gain/loss on exchange arises from transactions in currencies other than United States dollars and revaluation of assets and liabilities held in local currencies. On the closing of the accounts at the end of each fiscal period, the balance of the exchange accounts is debited/credited to miscellaneous income, which constitutes a formal departure from financial rule 110.7.

(v) The proceeds from the sale of surplus property are credited to the miscellaneous income of the respective funds.

(vi) The net income from sales of publications is reported as miscellaneous income.

(q) Technical cooperation accounts.

(i) The technical cooperation financial statements report on the activities financed by UNDP, trust funds and the Industrial Development Fund. In addition, the expenditure for projects executed under the regular budget of UNIDO (UNIDO's Regular Programme of Technical Assistance), together with corresponding amounts of allocations, are also reflected in the technical cooperation financial statements as supplementary information in order to give an overall view of technical cooperation activities.

(ii) The appropriations for technical cooperation programmes of the regular budget are administered in accordance with the Financial Regulations of UNIDO.

(iii) Allocation income - UNDP. The figures for allocation income from UNDP are the same as reported for total expenditure in line with UNDP procedures which require that allocations be adjusted to equal actual expenditure.

(iv) Contributions income - trust funds. Contributions from Governments or other donors are recorded upon receipt of the contribution.

(v) Interest and miscellaneous income. Interest and miscellaneous income arising from regular budget activities are credited to miscellaneous income of the General Fund. Interest and miscellaneous income arising from UNDP activities are credited to the operating fund account maintained with that organization. Interest and miscellaneous income for technical cooperation trust funds and the Industrial Development Fund are credited to the fund concerned.

(vi) Unspent allocations/deferred income - UNDP. The unspent balance of allocations issued for the current year, together with allocations issued for future years, is reflected as an asset and as deferred income.

(vii) The criteria for recording and reporting unliquidated obligations against the current biennium for the Regular Programme of Technical Cooperation are the same as those for the regular budget.

For all other technical cooperation fund sources obligations may be reported as expenditure of the current year on the basis of the following criteria:

Personnel Services

The cost of salaries and related expenses corresponding to services rendered within the calendar year. Personnel services, in this context, includes temporary assistance and overtime as well as consultants who have subscribed to Special Service Agreements. However, when the remuneration of the consultant is expressed as a lump sum rather than a sum per period worked, the full cost of the contract may be treated as an obligation of the current year.

Supplies and equipment

The full cost of contracts or purchase orders entered into prior to the end of the year, whether or not delivery has been effected, as long as there is budgetary provision in the current period.

Subcontracts

An obligation can be sustained on the basis of the payment schedule included in the signed contract with the contractor. Where no payment schedule exists, the basis is the estimated timing of payments.

Fellowships

The cost of the fellowship from the date of commencement of study to completion of study or 31 December, whichever is earlier. The fellow must have been placed, i.e. the fellowship awarded to a named individual and the place of study, the course of study and the duration of the study established and the recipient Government notified.

Travel

The full cost of travel, including the cost of transportation, subsistence allowances and other incidental expenses can be sustained if travel started prior to the end of the calendar year.

Group training

The cost of activities held in the current year. In the case of activities beginning in one year and continuing into the next, the full cost of the activity should be charged to the current year.

(viii) Unliquidated obligations for the current period in respect of all technical cooperation activities other than the regular budget remain valid for 12 months following the end of the year, rather than the biennium, to which they relate. However, in accordance with UNDP reporting requirements, executing agencies may retain unliquidated obligations beyond 12 months when a firm liability to pay still exists; such liabilities are reported as accounts payable in the financial statements. Savings in the liquidation of prior period obligations are credited to individual projects as a reduction of current period expenditure in accordance with UNDP reporting requirements. The UNDP requirements are also applied in the case of the Industrial Development Fund and trust funds.

(ix) Commitments are disclosed in the notes to the financial statements of the respective fund rather than reported as a separate liability item as was previously the practice.

(x) A system of average costing is used for UNDP projects whereby those elements of experts' actual costs which are unique to the individual expert are charged to UNDP projects at average cost, calculated by apportioning those costs over all UNDP projects in respect of which expert-months have been delivered in the current period.

(r) Trust funds. Director-General's Bulletin UNIDO/DG/B.18/Rev.1 dated 15 May 1992 sets out revised policies for establishing and managing trust funds with effect from 26 May 1992. Extrabudgetary funds provided to reimburse the Organization for the use of its facilities are excluded from the provisions of UNIDO/DG/B.18/Rev.1.

(s) Special account for programme support costs.

(i) Reimbursement for programme support costs is provided for in respect of extrabudgetary technical cooperation activities. Reimbursement is calculated as a percentage of programme resources expended.

(ii) Under the UNDP successor arrangements for agency support costs, technical support on programme and project level are reimbursed at standard unit cost per work-month, whereas for administrative and operational services reimbursement is calculated at rates applicable to specific clusters of services.

(iii) In the financial statements of the Organization, the special account for programme support costs (Statement V) is shown separately from the extrabudgetary funds (Statement VI), from which its income derives.

(iv) Unliquidated obligations in respect of the special account for programme support costs are accounted for on the same basis as for the programme budget.

(t) *Ex gratia* payments made in accordance with financial rule 109.13 are reported in the notes to the financial statements of the respective fund pursuant to financial regulation 9.3.

Note 2. General Fund

(a) Adjustment of appropriation (Statement I, Statement II A)

The General Conference approved an amount of $196,310,300 for the regular budget for 1994-1995 on the basis of an exchange rate of US$1 = AS 12.90 (GC.5/Dec.18), one half of which has been assessed to Member States for 1994. This amount has been adjusted after applying the adjustment formula shown in resolution GC.4/Res.27 to take account of the average exchange rate actually experienced during the year 1994 (US$1 = AS 11.41).

(b) Revaluation of assessment (Statement IIA)

Receipts in US$	8,745224	
US$ equivalent of receipts in AS at rates in effect on date of payment	72,789,150	81,534,374
Unpaid US$ contributions	3,033,390	
Unpaid AS contributions valued at December 1994 rate of US$ = AS 10.90	26,326,453	29,359,843
Value of 1994 assessment as at 31 December 1994		110,894,217
1994 assessment as per Statement I		109,434,822
Decrease in value of assessment due to exchange rate fluctuations		1,459,395

(c) Provisional excess of income over expenditure (Statement II A)

Includes assessed contributions irrespective of collectibility as well as refunds of prior bienniums' expenditure of $185,220.

(d) Surpluses due to Member States (Statement II B, Statement III)

Pursuant to financial regulation 4.2 (c), the amount to be surrendered to Member States is the remaining balance of any regular budget appropriations after deducting therefrom any contributions from Members relating to the fiscal period of the appropriations which remain unpaid. It is due to Member States in proportion to their assessed contributions at the end of the second calendar year following the fiscal period to which the appropriations relate unless otherwise decided by the General Conference.

(e) Increase in the US$ value of AS contributions, 1992-1993 (Statement II B)

Pursuant to decision IDB.7/Dec.7, arrears of assessed contributions in Austrian schillings for 1992-1993 were valued at the exchange rate of US$1 = AS 11.31, being the average exchange rate for the three-year period covering the biennium 1992-1993 and the 12-month period following that biennium and ending on 31 December 1994.

	AS	US$
Unpaid AS contributions as at 31 December 1993	396,222,643	
valued at December 1993 rate of US$1 = AS 12.00		33,018,601
Receipts in AS converted at rates in effect at date of payment	247,619,563	22,262,480
		10,756,121
Increase in value of unpaid AS contributions		2,382,995
Unpaid AS contributions valued at US$1 = AS 11.31 as at 31 December 1994	148,603,080	13,139,116

(f) Accounts receivable (Statement III)

Following the recommendation of the External Auditor, advances for Seminars previously reported as cash are now classified as accounts receivable.

The following table is an aged analysis of the accounts receivable, expressed in millions of United States dollars, included in Statement III as at 31 December 1994:

	Less than one year	More than one year	Total
Governments	1.9	-	1.9
Staff members	1.6	-	1.6
Specialized agencies	4.8	-	4.8
Other	0.6	—	0.6
Total accounts receivable	8.9	—	8.9

(g) Payment of national income tax recoverable

United States income tax reimbursed to UNIDO staff members financed from the regular budget in the amount of $1,555,104 has been claimed from the Government of the United States of America. The obligation of $950,490 established against 1992-1993 appropriations for taxes paid during the period 1986-1991 (PBC.10/8, annex I, note 3) has been retained as negotiations with the Government of the United States of America are ongoing.

(h) Deferred charges (Statement III)

The table below provides an analysis of the amount shown in Statement III as deferred charges, expressed in millions of United States dollars, as at 31 December 1994:

Education grant advances	0.7
Total deferred charges	0.7

(i) Accounts payable (Statement III)

The following table is an analysis of the accounts payable, expressed in millions of United States dollars, appearing in Statement III as at 31 December 1994:

Governments	0.1
Staff members	1.4
Vendors	2.9
Specialized agencies	0.4
Repatriation grants	0.1
Other	0.1
Total accounts payable	5.0

(j) Due to other funds (Statement III)

The following table is an analysis of the interfund balances appearing in Statement III as at 31 December 1994. These balances reflect transactions between UNIDO and other agencies and entities that are normally settled in the following month.

Due from the United Nations and other UNIDO funds

	US dollars
United Nations	2,614,420
Trust funds (Statement VI)	907,947
Industrial Development Fund (Statement VI)	1,168,344
	4,690,711

Due to other UNIDO funds

Special account for programme support costs (Statement V)	755,548
United Nations Development Programme (Statement VI)	1,848,620
COMFAR Revolving Fund (annex IV)	172,709
Self-liquidating commercial activities (annex II)	116,148
Total	2,893,025
Net amount due from the United Nations and other UNIDO funds	1,797,686

(k) Commitments

Commitments of $4.7 million entered into prior to 31 December 1994 represent legal obligations for which disbursements will be made in 1995 or in future bienniums. Obligations in currencies other than US dollars have been converted to US dollars at the official United Nations rate of exchange in effect in December 1994.

Millions of US dollars

	1995	Future bienniums	Total
Facilities management	1.5	3.1	4.6
Computer-related training	0.1	—	0.1
Total	1.6	3.1	4.7

Long-term contracts awarded for the operation of the VIC are no longer reported as commitments as they may be terminated at any time without penalty.

(l) Non-expendable equipment

Annex V

ESTIMATES OF CONTINGENCY LIABILITIES FOR END-OF-SERVICE PAYMENT FOR UNIDO STAFF

In accordance with the decision taken by the Panel of External Auditors in 1989 at Manila, UNIDO calculated that the following amounts would be required to cover the estimated costs of contingency liabilities for end-of-service payment as at 31 December 1994: regular budget - $51 million; operational budget - $6 million. It should be noted that no budgetary provision has been made, except that in the case of operational budget as reflected in Statement V of accounts (operating reserve) there was a contingency reserve of $5.5 million which, after having been reduced during the biennium 1992-1993 to $1.9 million, was increased during 1994 to $2.7 million.
